NYC §4-12 p3: Bicyclists may ride as far to the left or right as practicable on a one-way street that is at least 40 feet wide.

*Driver: “If you ride a bike, you have to watch out. You have to yield to cars.”*

NYS Art. 26 (§1231): Yielding: Drivers must follow normal rules of yielding the right of way to bicyclists as they would any other vehicle, when drivers are turning, crossing intersections, changing lanes, or entering the roadway.
