

**YOUR VEHICLE IS
PARKED IN A
BIKE LANE**

Your action/inaction is hazardous both to bicyclists and to your vehicle.

Riders are forced to swerve into traffic to avoid crashing into your vehicle- if they see it in time.

Parking your vehicle in the bike lane makes this alternative mode of transportation dangerous, discouraging its use and encouraging more people to drive. It thereby increases the traffic congestion you must deal with every day.

Please help avoid traffic injuries or fatalities, as well as damage to your car.

**Please park in a
legal parking space
or parking lot.**
